Download the Word Template & View Guidelines

Now for the fun part... formatting.
*Manuscript Formatting*

Allows students to incorporate previously published articles as chapters

- Front and Back Matter still required and formatted by Baylor guidelines
- Must include same Level One and Level Two chapter headings as well as article citation at beginning of chapter
- With some exceptions (must maintain margins, must avoid bold, etc.) you may keep the publisher’s formatting of the article

*See formatting guidelines for complete information about manuscript format*

If not the sole or first author on a publication included in the dissertation, the committee chair must submit a petition on student’s behalf
Basic Prep & Overarching Features
 Prep your document

Regardless of whether you use the template (we highly recommend doing so), here are some things to do to your Microsoft Word document before you start any other formatting attempts to ensure you don’t run into issues down the road.

The basics

- Select a serif font (ex. Times New Roman), size 12
  Footnotes can be size 10
- Set custom margins: 1 inch top and bottom, 1.25 inches left and right
Prep your document (continued)

Highlight the whole document (ctrl+a or command+a)

- Layout > Paragraph > Indents and Spacing
  Before and After Spacing should be 0
  Check “Don’t add space between paragraphs of the same style.”

- Layout > Paragraph > Lines and Page Breaks
  Check “Widow/Orphan control”
Prep your document (continued)

**Viewing tools**
- View > Show > check “Ruler”

- Home > Paragraph > click the paragraph symbol

This setting shows you spaces between words and lines as well as where you have pressed “return.”

It is quite useful when formatting headings.
Spacing

- **Double-space**
  
  - One empty single space followed by writing on the next line

- **Triple-space**
  
  - Two empty single spaces followed by writing on the next line
CHAPTER ONE

Chapter Title

Section Title

Subsection Title

Subsection title. Begin Paragraph.
Front Matter
[See the Word template for information on front matter and examples]
Body Chapters
Tables and Figures

*Vary based on departmental style guides. The captions and legends themselves (whether they are italicized, sentence or title case, etc.) will depend on your style guide.

Things common to all tables and figures:

• Tables and figures centered on the page
• Table caption *above* tables; Figure legends *below* figures
• Double space between the table/its caption or the figure/its legend
• Triple space above and below the table/figure (see next two slides)
• Use continuous numbering throughout (Figure 2.3; Table 3.1, etc.)
Tables

Tables should be mentioned in the text before they appear.

Table 1.1

Title of the Table

<table>
<thead>
<tr>
<th>Column 1</th>
<th>Column 2</th>
<th>Column 3</th>
</tr>
</thead>
</table>

Some style guides have the table number and title on the same line. Consult your style guide.

Text will continue after a triple space. Blah blah blah blah.
All figures must be mentioned in the text before they appear (Figure 1.1).

Figure 1.1. Figure legends are at the bottom and centered if one line. If figure legends take up more than one line, they are left aligned.

Then you would continue the text in the paragraph. You will use continuous numbering based on chapter and figure number. (For example, the first figure in chapter one is Figure 1.1, the third figure in chapter two is Figure 2.3, etc.)
Other features in body chapters:

**Footnotes**
- Restart numbering with each chapter
- Single space, 10 or 12 point font
- First line of a footnote is indented, with subsequent lines left justified (see model)
- If footnotes are on the last page of a chapter, they should directly follow the last line of text (rather than all the way at the bottom)

**Block quotes**
- Single space
- Double space above and below
Back Matter
Appendix/Appendices

• Page with “Appendix” or “Appendices” halfway down the page
• Appendices are lettered
• Tables and Figures are labeled A.4, A. 2, etc. and labeled just as normal body chapters in terms of Level One and Level Two headings
Bibliography

Bibliography

Signature Page
Signature Page

- Use the fillable Signature Page following the instructions/model online.

- Do **NOT** recreate, copy, or paste the document into Word; we’ll insert it as a PDF at the very end of the process.

- Title should be in Title Case regardless of your style guide.

- Title should be broken in a reasonable place if longer than two lines.
